nalgamated Copper Shows Up Strong and Large Foreign Purchases Are Reported.

New York, Dec. 21.-Nothing more was empted in today's stock market than hold prices. This attempt was emitly successful, the market presenting hard and unyielding purface. No at power of resistance was required, fact, for the pressure upon the mar-

was the lightest. The running up of the money rate late the day to 9 per cent, the highest of movement, was not unexpected, and of little influence on stocks. The was much less than often happens this period of the year, and specualive commitments are apparently er extended and not in weak hands, that the shifting of loans dislodged ttle stock.

There was no buying demand of importance for stocks, and the firmmess of the market was rather due to absence of pressure than to any active show of strength. The most prominent stock in the speculation was Amaigamated Copper, which rose to a new high level of the movement. The only news bearing on the stock was the report of large foreign buying of copper, the December exports, it was said, promising to show the largest figurers for any month of the calendar year. The report that the United Copper syndicate had been dissolved also had a favorable effect upon Amaigamated Copper. The movement in Atchison was a turn against the shorts. London reflected a depressing influence upon this market. The year end maney pressure showed in London and Parls as well as here, but Berlin's condition was reported to be unexpectedly saft. The weekly statements of the great foreign banks showed the enormous expansion of credits usual at the end of the year, and which are contracted again much more promptly in the foreign money markets than here, historic money markets than here. Interior movement of currency seems we been largely in New York's favorable historic movements of cash and the change in the loan item. Much exist attaches to the amount of the expected loan expansion. The increase in the loan item. Much exist attaches to the amount of the expected loan expansion. The increase in the loan item. All Green Stuffs Cleaned Up for New Year Dinners for Those Who Can Afford Them.

The market was pretty lively yesterday and the supply proved inadequate along The supply of California greens, such as lettuce, radishes, parsley and celery gave out early in the after noon, and many orders had to be canceled toward night. There was a constant demand for poultry, but the supply proved to be inadequate in this line. The fish market was well supplied with all varietles save striped bass, of which there were none toward night.

The merchants report that there has been a moderate demand for turkeys all week, but the supply and trade in this line is practically over for the present. Hens and spring chickens each jumped up a cent, but continued to sell well. Geese were plentiful, with a constant demand.

The fish market did a rushing business yesterday. Hallbut, sturgeon and trout were among the favorites, and sold strong all day. Large shipments of crabs, trout and oysters were among yesterdays arrivals. The cold weather permitted the oysters to be shipped in lee hoxes without any preserving, and they were especially fine on this account.

The market is becoming over-stocked with butter, and the indications are that the price will dorp within a day or two.

caused apprehension among shorts. The feeling of uneasinesses was increased by the warlike news from the East, and an urgent demand from shorts soon carried May up to \$42. The market lost part of its strength late in the day on realizing, but the close was firm, with May at \$45. Clearances of wheat and flour were equal to \$22,560 bushels. Primary receipts were 1,04,200 bushels, with a holiday last year. Minneapolis, Duluth and Chicago reported receipts of 616 cars, against 651 cars last week.

Reports of smaller yields west than expected and relatively higher prices being paid by feeders, light interfor movements and the action of wheat, all tended to create a decidedly bullish sentiment in corn. NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, Dec. 19, 1993

Notice is hereby given that the Continental Mines and Smelting corporation, by Henry M. Crowther, its manager, whose postoffice address is Salt Lake City. Utah, has made application in accordance with the requirements of chapter 169 of the Session Laws of Utah, 1993, to appropriate one (1) second foot of the water of Little Cottonwood creek, situated in Salt Lake county, Utah, to be diverted by means of an intake box and pipe at a point immediately above the junction of the north fork of said Little Cottonwood creek, from which place the water will be conducted in a pipe for a distance of about 2500 feet, and there to be used from January last to December list, inclusive, of each year for general domestic purposes, including the extinguishment of fires, at the Continental-Alta mine, situated above the town of Aita, in Little Cottonwood mining district. It is intended that only the lesser part of said water will be consumed, and that the greater part of it will be returned to the natural channel of said Little Cottonwood creek at a point where said north fork connects with the main stream.

All protests against the granting of said application, stating the reasons therefor, must be made in writing and filed in this office after thirty (80) days and before sixty (90) days from the date hereof.

A. F. DOREMUS, State Engineer.
